

Republican Erosion of Personal Privacy Rights

- Republican legislators in Florida passed 15 and 6 week abortion bans — despite the state’s constitutional rights to personal privacy *and* the vast majority of Floridians who support the right to make their own reproductive healthcare decisions.
- A citizen-led initiative gathered 990+ million petitions to give voters the choice to establish the right to abortion in the Florida constitution on the 2024 ballot.
- FL Attorney General Moody (R) is focused on **negating the ballot initiative and silencing millions of Floridians.**

VOTE *YES* on *Amendment 4*
on November 5th, 2024!
